

Welcome to the Recreational Fishing Portal

Written by Administrator

Saturday, 12 September 2009 20:46

This Portal is a tool made available by the National Fisheries Service to Chilean nationals and visitors from abroad in order to promote Recreational Fishing and Tourism in Chile, and encourage the compliance of standing regulations and the protection of our aquatic resources and the environment.

With this in mind, we hereby invite you to visit the sections of this portal to learn about new events, recommendations, contests, fishing grounds and everything you need to know about the exciting world of recreational fishing.

Recreational fishermen now have the option to purchase a fishing license on line without having to go to the National Fisheries headquarters or authorized locations.
