Ancud commune

The rainy weather in winter and cool in the summer by the sea and forests influences. The commune has several interest centers such as the Spanish forts of San Antonio, Ahui and Butalcura, besides a well-endowed hotel infrastructure. The main point of sport fishing in the commune is the Chepu river, where there is a significant growing infrastructure of tourist services like Kayak, horses rental and and boats for sport fishing, although no hospitality services on the spot you can spend the nights in some locals houses who have been trained to attend to visitors.
